Journal of Volcanology and Geothermal Research 76 (1997) 329–330

Journal of volcanology and geothermal research

Contents Volume 76, 1997

Research Papers

The evolution of lava flows from ephemeral vents at Mount Etna: Insights from vesicle distribution and morphological studies
M. Polacci and P. Papale 1

The internal structure of lava flows—insights from AMS measurements II: Hawaiian pahoehoe, toothpaste lava and 'a'ā
E. Cañón-Tapia, G.P.L. Walker and E. Herrero-Bervera 19

Changes in Whangaehu river lahar characteristics during the 1995 eruption sequence, Ruapehu volcano, New Zealand
S.J. Cronin, V.E. Neall, J.A. Lecointre and A.S. Palmer 47

Chemical and isotopic signatures of the basement rocks from the Campi Flegrei geothermal field (Naples, southern Italy): inferences about the origin and evolution of its hydrothermal fluids
G. Caprarelli, M. Tsutsumi and B. Turi 63

Oxygen isotope compositions of intracaldera rocks: hydrothermal history of the Long Valley Caldera, California
V.S. McConnell, J.W. Valley and J.C. Eichelberger 83

Liquid fractionation. Part IV: Scale models for liquid fractionation of calc-alkaline magmas
S. Maaløe and A.R. McBirney 111

The evolution from Miocene potassic to Quaternary sodic magmatism in western Turkey: implications for enrichment processes in the lithospheric mantle
G. Seyitolu, D. Anderson, G. Nowell and B. Scott 127

Egmont Volcano, New Zealand: three-dimensional structure and its implications for evolution
C.A. Locke and J. Cassidy 149

The eruptive rate and history of Kuju volcano in Japan during the past 15,000 years
H. Kamata and T. Kobayashi 163

Book Reviews

The Woongarra Rhyolite — a giant lavalike felsic sheet in the Hammersley Basin of Western Australia, by A.F. Trendall
M.F. Howells 173

Feuer im Meer-Vulkanismus und die Naturgeschichte der Insel Santorin, by Walter L. Friedrich
G. Heiken 174

Research Papers

Thermal observations of degassing open conduits and fumaroles at Stromboli and Vulcano using remotely sensed data
A.J.L. Harris and D.S. Stevenson 175

Potential application of the Scintrex CG-3M gravimeter for monitoring volcanic activity: results of field trials on Mt. Etna, Sicily
G. Budetta and D. Carbone 199

Complexities of plinian fall deposition at vent: an example from the 1912 Novarupta eruption (Alaska)
J. Fierstein, B.F. Houghton, C.J.N. Wilson and W. Hildreth 215

Significance of crustal and source region processes on the evolution of compositionally similar calc-alkaline lavas, Mt. Hood, Oregon
J.W. Cribb and M. Barton 229

Multiple sources of Quaternary tephra layers in the Mariana Trough
S.M. Straub 251

A submarine welded ignimbrite–crystal-rich sandstone facies association in the Cambrian Tyndall Group, western Tasmania, Australia
M.J. White and J. McPhie 277

Cooling and crystallization in sheet-like magma bodies revisited
M. Hort 297
Empirical method of calculating the viscosity of peraluminous silicate melts at high temperatures
A. Goto, H. Oshima and Y. Nishida 319

Contents Volume 76 (1997) 329
